

DELMARVA 2000™

Fiber Optic Lighting

Now available—super bright Fiber Optic Light at the point of incision covering the surgical field. Fiber Optic Light is cold bright light enabling the surgeon to work in a shadow free environment.

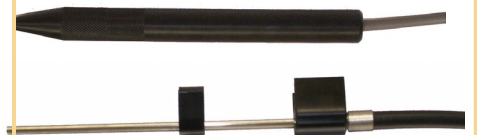

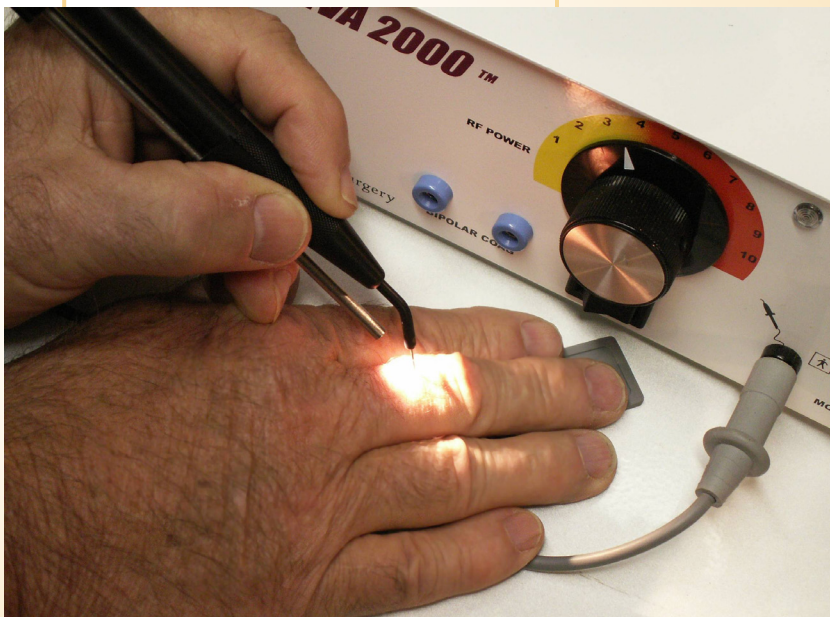

1 year warranty

FIBER OPTIC LIGHTING For your *Delmarva* *2000* HFR Veterinary Surgical Unit

HFR surgical unit

The light attaches to your existing hand piece and can be cold or gas sterilized. It is easy to attach and or remove. The Delmarva, exceptionally bright light is very light weights at just 0.6oz with no additional stress to the veterinarian.

Interchangeable with our dental scaler fiber optic instrument.
